FIELD INSPECTION REPORT**

SOURCE: Bedford Recycling, Inc.

INSPECTED BY: Andrea Alltop

LOCATION: 904 Summit Lane

INSPECTION DATE: 10/01/2013

TIME IN: 10:00a.m **TIME OUT:** 10:50a.m.

CITY: Bedford

REPORTED BY: Andrea Alltop *AKA*

REPORT DATE: 10/24/2013

COUNTY: Lawrence

ACES NUMBER: 167362

COMPLAINT INVESTIGATION: YES

Complaint: ACES #:167359 and
TEMPO# 40330 and 40770

BACKGROUND: Two anonymous complaints were received by IDEM, Office of Air Quality, on September 24, 2013 and October 8, 2013 via complaint forms to Indianapolis Office that was forwarded on to me. The complainant alleges open burning of potentially hazardous materials. The entire area is affected by the air quality. The smoke is yellowish in color, sometimes even orange. When the smoke is low, the smell is similar to a burnt-out fluorescent light ballast.

PROCESS DESCRIPTION/FINDINGS/OBSERVATIONS:

During this inspection on October 1, 2013, I met with the company Human Resource Manager, Mr. Mathew Attutis. No OB was observed at the time of my visit and no evidence of previous OB was observed. However, Mr. Attutis did allude to the fact that they are cutting steel at the present time and over the past several weeks that is creating an orange smoke from the torch flame and oxygen. He took me to the area of the welding and I did observe the orange smoke created from this process. I explained that it was not legal for a company to burn anything, even clean wood and Mr. Attutis confirmed that he was aware of that.

CONCLUSION (S): Evidence as to Violation of 326 IAC 4-1 was not observed.

RECOMMENDATIONS: Send an inspection summary letter to Mr. Mathew Attutis, and close the complaints as no further action can be taken at this time and the complaints have been appropriately responded to. Continue surveillance when in the area.
